

Welcome to the L Block community!!!

With 9 languages and over 10 courses to choose from, we are the largest Languages faculty in ACT. Like no other, you'll be able to learn a language (or languages) with our highly supportive and specialised teachers. As well as regular in-class learning, there are opportunities for movies, cooking, meeting exchange students, and even going overseas yourself. Assessment tasks involve no prac books, and there are fewer students to compete with in the rankings.

If there are any questions, don't hesitate to talk to the Languages staff!

So come and join the community!!!

Can't wait to see you around L Block!!!

P.S. In case you didn't know, L stands for Legendary.

Vivian D

I firmly believe that languages are one of Narrabundah colleges' strongest aspects. Not only do we have one of the vastest language offerings in Canberra, our language teachers are each native speaker. This means that they all care deeply about the students' learning, as they are passionate about their respective language. In my experience, this means that my language teachers have been willing to give up their own time out of class to help me with grammar, marking my work, or any other questions that I have just to see that I thrive. Having teachers that have your back like this makes the transition into college much easier. Them being so passionate and knowledgeable about their languages and cultures overall makes the classroom really engaging, interactive, and really interesting.
