

BUSINESS (Tertiary /Accredited)

Business is concerned with the study of the essential planning requirements ranging from a small business to the broader roles of management, finance, employment relations, marketing, e-business, ethical practices, sustainability and the impacts and implications of the future business environment. Students are challenged to think critically and develop problem solving skills to become independent learners, social and ethical thinkers, and efficient decision makers in local, national and global contents.

“The presentation, report preparation and interviewing skills I learnt from the Business course at Narrabundah College were very relevant and extremely useful when I started working in a corporate environment. It enabled me to work at a very high standard from day one.” – Anuja PIYATILAKE, Business Student, CLASS of 2012

“A career in Business can lead you to a diverse range of things. You can start your own business or work in anything, because anything is a business.” – Grace MULDER, Business Student, CLASS of 2014

Curriculum Enrichment Activities and Opportunities

We organise a wide range of activities and provide students opportunities to connect what they study in the classroom to the real world and explore the potential career pathways.

- Guest Speakers. We organise guest speakers throughout 2 years according to the availability of the speakers. For example:
 - Speakers from ORIMA Research
 - Speakers from United Bank of Switzerland (UBS)
 - Speakers from The ACT & Region Chamber of Commerce & Industry
- Chartered Accountant Meet the Business Leaders Excursion
- Australian Business Week
- ANU Young Business Leaders Challenge

- UBS Young Women's Leadership
- UBS Finance Academy
- Work Experience
